BASKETBALL SEASON CLOSES WITH VICTORY

Mishawaka Wins Game With Elkhart at Elkhart—Most Successful Season in Many Years.

The 1913-14 basketball schedules for the Mishawaka high school basketball squad closed Friday evening with the last game at Elkhart with the Elkhart high school basketball squad. The Mishawaka boys won the contest with Elkhart by a score of 27 to 22. Last evening closed the most successful season of basketball for the locals in many years. Much credit is given Coach O. A. Hindelang for the success of the team as he has been a hard worker among the basketballers for success.

The team has won 12 out of the 17 games scheduled including the tournament games. Two games were won to South Bend, one to Laporte, one to Plymouth and one to New Albany in the state tournament at Indiana university.

The preliminary game, between the Mishawaka high school second team and the Elkhart second team, was won by the locals by a score of 31 to 19.

FIRST MONTHLY CROP REPORT IS NOW OUT

General Crop Condition of Entire Country is Given in Report—Farmers Asked to Offer Suggestions.

Saturday morning, the first day of spring, the first number of the monthly crop report of conditions of the entire country was issued by the Mishawaka Trust and Savings company. It was decided at a meeting of bank directors held recently that a report be issued every month by the bank officials to both the farmers, professional and laymen of this community. The report is printed in a neat pamphlet form which is mailed out to those requesting the issue. The reports may also be secured at the bank during banking hours. Over 1,000 of the reports were mailed out Saturday morning.

The report was compiled March 14, this year, and is a compilation and digest of crop figures collected by the United States government, the state governments, agricultural schools and societies, various universities and colleges, board of trade, chambers of commerce, professional statisticians and statistical bureaus, railroads running through agricultural districts, etc.

According to the report the crop year of 1914 begins under most favorable conditions, states the report. During the past winter, has been very favorable for crop conditions throughout the country and is brought up to the opening of spring with the local wheat, rice and oats condition in agricultural history.

Last year the first harvest of first winter wheat crop exceeded 500,000,000 bushels, but with the present acreage under present conditions, a crop exceeding 50,000,000 bushels over that of last year can reasonably be expected.

An interesting phrase in the agricultural situation today is the small quantity of last year's crops still remaining on the farm where they were grown. This is about 20 per cent of last year's crop still remaining. The average price of wheat in all markets at the beginning of this month is 85 cents. The corn crop of last year has been consumed to the extent of 65 per cent. The other statistical reports of the other various crop conditions are also given.

Farmers in this community are requested to make comments or suggestions on the report issued. They will be welcomed.

TWO BIG FEATURES AT CENTURY.

Two big features will be shown at the Princess theater on Monday evening. One is "A Shot in the Night," a Kalem drama in two parts. This is a great picture, showing the strong protests a ten-year-old son makes against his father's second marriage. His father marries, and the boy makes no attempt to conceal his hatred for his stepmother. After several attempts to reconcile the boy, the stepmother resolves to pay the boy in his own coin. The enemy between the young wife and the stepson vanishes when danger threatens. She shoots at what both had thought to be a burglar and finds she has shot her husband.

The second feature will be a Vitagraph comedy drama in two parts entitled "Jerry's Uncle's Namesake." A false newspaper report makes him the father of an infant. His uncle sends him a fat check and starts for home. He changes his mind and returns to Jerry's home to find him the father of twins, triplets and quadruplets. This is the most exasperatingly funny comedy of the season.

On account of the extra expense incurred the admission will be adults ten cents and children five cents.

VISITING IN CITY.

Mrs. Ray Long, Chicago, is visiting with Miss Hazel Nunn, 214 E. Eighth st.

FIRE AT RUBBER-RE THREATENS PLANT

Fire, which broke out in the ventilating system and the dry kilns at the Rubber Regenerating Co. Saturday morning about 4:45 threatened for a few moments to destroy the entire plant. Flames eat through the ventilators and on the roof and were seen by William Angerstein, who resides a block away. Still alarm was sent to the Central station, which made a quick run with the motor truck.

The plant in part was saved by the quick action of the sprinkling system installed throughout the buildings. Damage to the amount of about \$100 will result from the fire, but water damages will amount to a considerable sum, as both the floors were flooded, damaging the materials and machinery.

STEAL CHICKENS.

Chicken, of the feathered variety, was the quest of unknown parties who recently raided a hen coop located in the business district in the rear of N. Main st. The thieves were not particular as to size and cleaned the first roost in reach, occupied by six of the best pullets in the flock. They left no claw, but the owner entertains suspicions pointing to the guilty parties.

HOLD SURPRISE PARTY.

Mrs. Harry Bell, 124 W. Fourth st., was treated to a complete surprise Friday afternoon when 16 of her friends called unexpectedly to assist in celebrating her birthday anniversary. Timble work and a social time was enjoyed, followed by a dainty two-course luncheon. The decorations were green and white. Mrs. Bell was presented with a beautiful mahogany serving tray in memory of the occasion.

RELIEF ASSOCIATION ELECTS ITS OFFICERS

The annual meeting of the Mishawaka Firemen's Relief association was held Friday evening at the central fire station with a full attendance of members. Annual reports were made and an election of officers for the ensuing year was held. Emiel DeGroote was elected president; August Weir, vice president; Chief Albert Buysse, treasurer; Edward Christian, secretary. The following directors were elected: Fred Belting, William Roggerman, Zell Spence.

The meeting opened with remarks by President Emiel DeGroote on the work of the organization and the benefits derived from it by the members. This was followed by remarks by Chief Buysse and a financial report of the past year. According to the report there remains on hand at present \$1,064.07.

FAREWELL SURPRISE ON MR. AND MRS. GROVES

About 40 ladies and gentlemen on Friday evening pleasantly carried out a farewell surprise upon Mr. and Mrs. Frank Groves, E. Grove st. Mr. and Mrs. Groves will leave next week for Minnesota, where they expect to make their future home.

Music was furnished by a Victrola. Two contests were features of the evening; in the bean contest the favor was awarded to Mrs. J. K. Shively, while in the guessing contest Jack Hambricht was the most successful. The guests presented Mr. and Mrs. Groves with a pretty present, A. M. Field, making the presentation speech. Fine luncheon was served. The out-of-town guests were Mr. and Mrs. Byman, of South Bend.

LEAVE FOR BELGIUM.

Alphonse Van Hecke and family will leave Saturday night for New York where they will take passage for their old home in the fatherland. Mr. Van Hecke will take charge of his parents' farm and the family will make their future home there.

MACHINE REPAIRS

DAMAGE TO RAILS

Welds Them Together and Does Away With Delays to Traffic.

A machine that has attracted much attention on downtown streets within the past few days is a new electric rail and steel welder which is being used to repair the rails of the Northern Indiana lines. The welder does what was the necessary work of taking up worn rails and delaying traffic for hours at a time. It welds the worn places, supplying new steel, until they are in their original shape.

When in operation, the machine emits a peculiar glare and the bright lights up the whole street. It is used by few companies in the state the local company being among the first to purchase one. It has shown itself to be indispensable in the repairing of worn frogs, switches and intersections.
